

Irish Potatoes for 2012

Banana (Long season): Fingerling type with excellent flavor. It is not a storage potato.

Chiefton (Mid-season): Bright red skin, white flesh, round oval shape with shallow to medium eyes, high yield.

Kennebec (Mid-season): Smooth buff skin with white flesh, high yield, good storage. Moist, firm flesh type.

Yukon Gold (Mid-season): Yellow skinned, yellowish buff with flaked skin and light yellow flesh. Excellent boiling and baking variety, & excellent for storage. Flesh type is dry. Not as high of a yielder as Kennebec.
